

**POSITION: Facility/Terminal Planner (Chicago, IL)**

Landrum & Brown, a nationally and internationally recognized leader in aviation and airport consulting, is currently seeking a **Facility/Terminal Planner** to join the expanding planning team in our Chicago, IL office.

We are seeking a self-motivated, driven individual with strong written, verbal, and graphic communication skills with a background in planning, architecture and/or engineering to help us bring innovative airport solutions to the aviation industry.

The successful candidate will work under the guidance of Senior Terminal/Facility Planners and support other staff in conducting analyses and preparing project deliverables. Occasional air travel to our airport clients and between our U.S. and other offices is possible.

**Responsibilities**

- Develop, refine, and evaluate alternatives for passenger terminal, airfield, AC parking layouts, apron planning, cargo and support facilities and landside facilities
- Develop programmatic requirements for medium and large hub airports
- Develop facility phasing/implementation plans
- Support terminal and facility planning studies by developing written reports, graphics, and presentations
- Coordinate with clients, sub-consultants, and key stakeholders to achieve projects goals and objectives
- Provide on-site client support and assist in planning/design charrettes and facility surveys
- Assist with facility condition assessments and other facility planning tasks

**Minimum Qualifications**

- Bachelor's and/ or Master's degree in Architecture, Engineering, Transportation Planning, or related degree is required.
- Approximately five (5) years of progressively increasing responsibility relative to airport terminal planning, architecture, infrastructure, and development of airport facility expansion or modifications concepts
- Understanding of airport passenger flows and baggage operations, and other critical systems

## Preferred Skills and Technical Expertise

- Advanced capabilities in AutoCAD and Revit
- Advanced capabilities in SketchUp or comparable 3D modeling software
- Workability in Adobe Suite including Photoshop, Illustrator, and InDesign
- Workability in PathPlanner or comparable gate planning software
- Workability in Microsoft Word, Excel and Project
- Familiarity with FAA Advisory Circulars
- Familiarity with IATA ADRM design criteria

Qualified candidates should submit resume and cover letter to:  
[hr@landrum-brown.com](mailto:hr@landrum-brown.com).

No phone calls or agency phone calls please.

Please include job title of **Facility/Terminal Planner** in your submission.
